

MEME NFT

MemeNFT is the new NFT marketplace for the
cryptocurrency space!

OFFICIAL WHITEPAPER

SCOPE OF MEME NFT

Welcome to MemeNFT, the new NFT marketplace for the cryptocurrency space! MemeNFT is led by an experienced, successful, and highly connected team within the cryptocurrency space that wants to bring the best NFT marketplace to the cryptocurrency community. MemeNFT will become the most known, one-stop NFT marketplace on the BSC!

At MemeNFT you will be able to:

- Buy, Sell, & Trade
- Auction & Bidding
- Wallet Integration
- Payment Integration
- Swap

The MemeNFT marketplace will be built off of the Binance Smartchain ecosystem, and it will house the NFT marketplace, the minting platform, and the auction house. This will provide the community members the opportunity to purchase, sell, exchange, or even HODL their collections.

Along with these awesome features it will have a community forum where MemeNFT users can interact and share with each other. This ecosystem will be heavily focused on meme art, big meme projects, and big meme nft artists!

WHAT MAKES US DIFFERENT

Yes, there are many NFT marketplaces, so what makes MemeNFT different from the rest of them?

01 MemeNFT will have its own website domain www.memenft.com that will be ubiquitously known because there will be no .io or .app, and it will be combined with non-stop marketing that will increase the number of users!

02 is that MemeNFT will have artist partnerships. These will be made with well known, and even new and upcoming artists so they can create their own collection of NFTs that will be exclusive to the MemeNFT platform. Information about the current and upcoming artists will be provided to the community through artist spotlights.

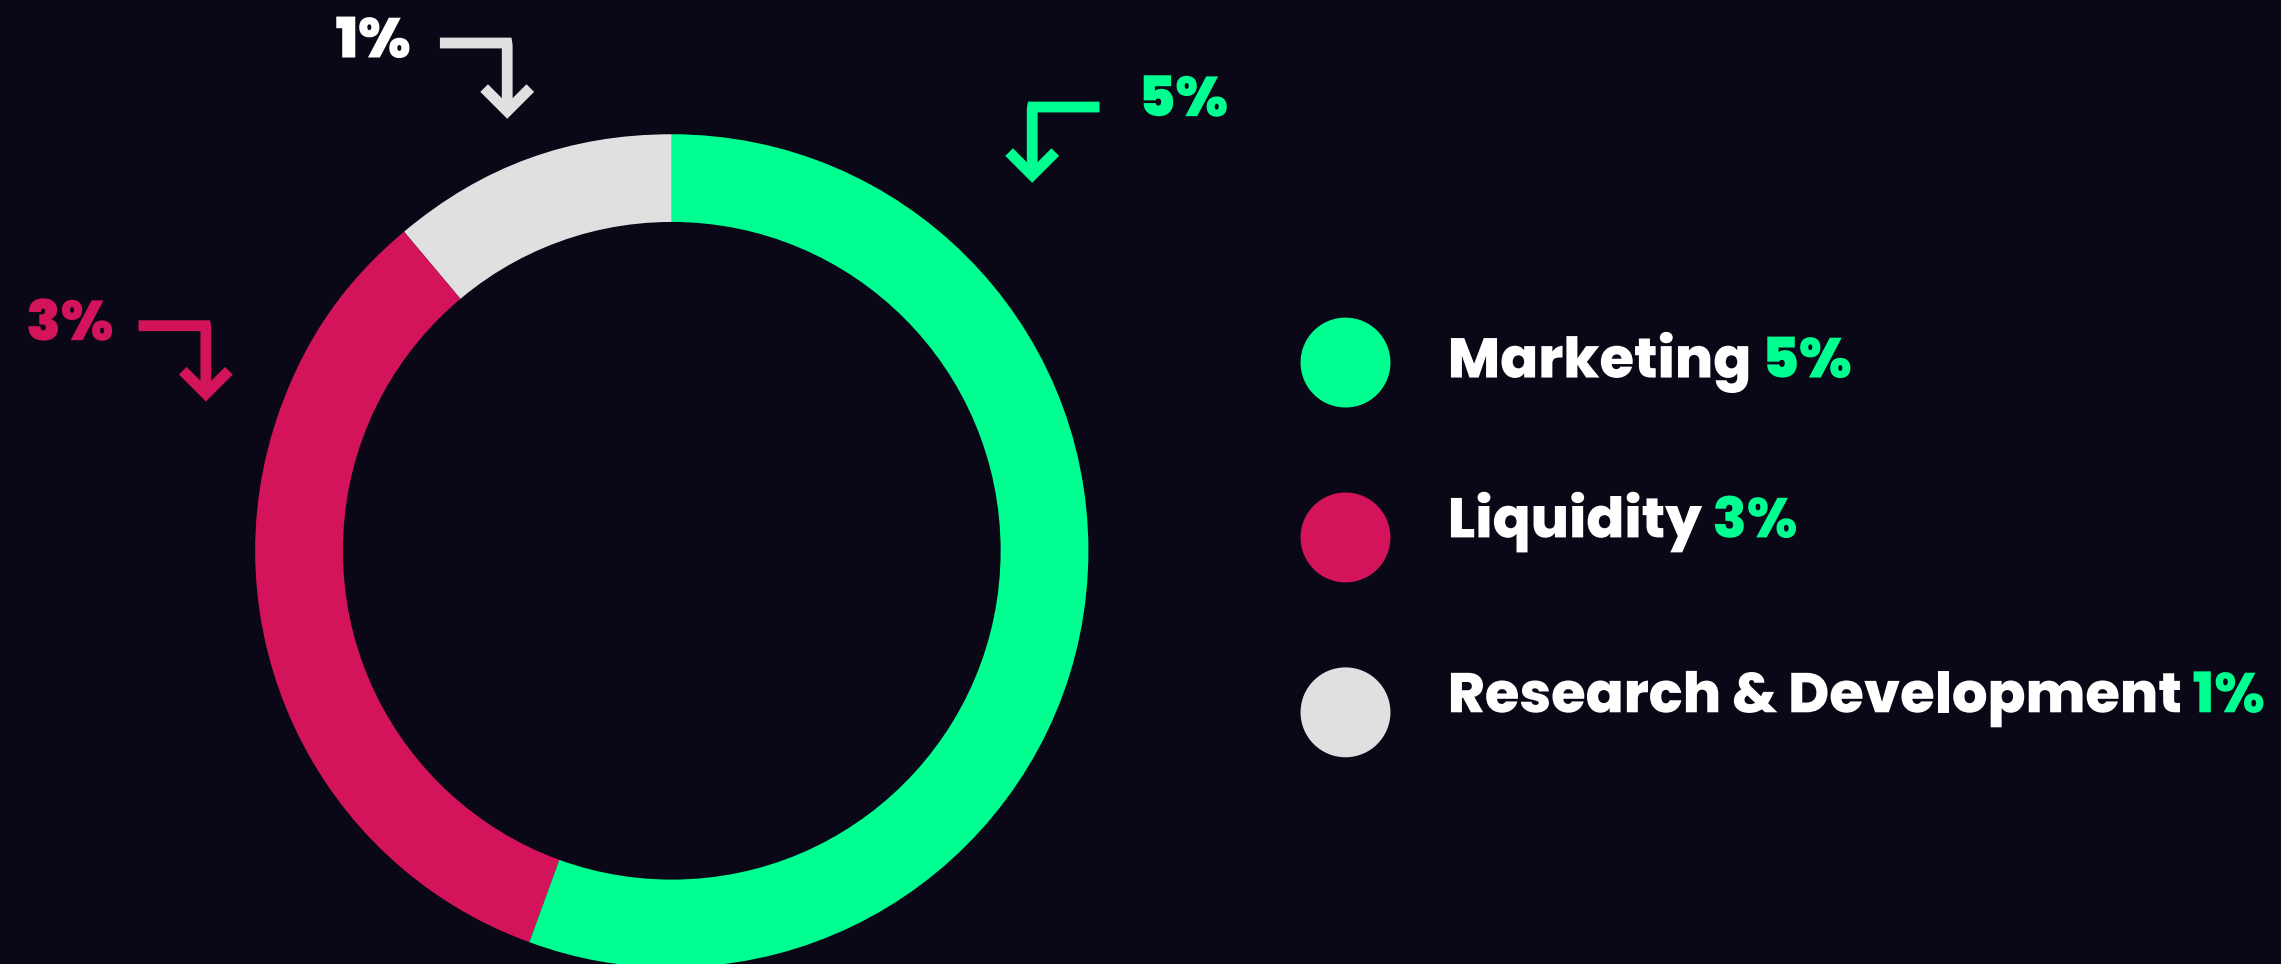

03 is the commitment to contribute to charitable organizations! The spotlighted artists will create and mint extremely limited numbers of NFTs, and the proceeds from those sales will be sent to the chosen organization.

- Decisions on which charitable organization will receive the proceeds can be determined through community voting polls. This will also increase community interaction and help us grow into a stronger community.
- Additional utilities will be added as we develop and grow!

TOKENOMICS

Total Supply: The total supply of MemeNFT Tokens is 10 trillion tokens (**10,000,000,000,000**)

- Backed by PinkSale's Watchtower audit.

MemeNFT Token Launch; December 20,2021

- PancakeSwap

MemeNFT.com Marketplace Launch; (Q1)

- Projected for a late January, 2022 launch

NFT MARKET

The biggest question is what are NFTs? “In the simplest terms, NFTs transform digital works of art and other collectibles into one-of-a-kind, verifiable assets that are easy to trade on the blockchain.” (Goodwin, 2021) These digital assets can take many forms such as pictures/images, video moments, videos, music, or even collectables such as baseball cards.

How big is the NFT market? The NFT market is skyrocketing further and further each day. There are many companies that are entering the NFT market that is making it more accessible to everyone! Some of these companies include Adidas, Nike, Disney, and even sports franchises like the NFL, NBA, and MLB. The cultural acceptance of NFTs is making the sales jump every second. “NFT sales volume surged to \$10.7 billion in the third quarter of 2021, up more than eight-fold from the previous quarter, according to data from market tracker DappRadar, as the frenzy for crypto assets reached new highs.” (Reuters, 2021)

Along with how well the current sales are going the projection for NFTs are astounding. The sales are projected to take up to 10 percent of the market for luxury goods. “Dolce & Gabbana’s sale of nine NFTs for \$5.7 million last month shows the huge potential for “virtual and hybrid luxury goods,” and the bank estimates that the total NFT market will grow to around \$300 billion by 2030.” (Canny, 2021) Most of these NFTs are created by digital artists, very much similar to the artists that will be spotlighted on the MemeNFT marketplace!

There is much room for the possibility of personal financial growth within the NFT market. For example, according to CNN, (2021) one of the more recent NFT success stories is a 28-year-old artist who made over \$130,000.00 in 5 months all from the NFT marketplace (the article is provided in the reference section). This is just one of the many NFT success stories that are happening every day, so make the decision that you will thank yourself for later on, and join the MemeNFT community today!

DEVELOPMENT TEAM

@ALEXSTACKSATS
CEO

Experienced networker and technical analyst. Extremely knowledgeable in trading and investing.

@FULLYPICKLED
CMO

15 years of marketing in and out of the crypto space. Mr. Pickled is heavily connected within the crypto space, especially within BSC and ERC20.
